Andrew Dammann
Network Mgmt & Perf
Mr. Nadi

Final Project Outline

- Introduction to OSSIM
- Overview of how to interact with OSSIM and gather data
- My experience and difficulties using and analyzing the data
- Details on the data collected from the Villanova network
- Personal analysis of the data
- Insight into how to better secure the network, such as the most common attempted exploits, etc.
- Conclusion on lessons learned about OSSIM and Villanova network security
