

CSC 8520: Artificial Intelligence  
Fall, 2015, Weds, 6:15-9:00, Mendel G88  
**Student Questionnaire**

**General background**

- Name:
  
- Best email to contact you if I have to cancel class:
  
- Do you have your own computer available for this class? If so, what OS? (Windows, OS X, Unix?)

**Specific Knowledge:** (This helps be know in how much depth to cover materials).

- What csc courses have you taken?
  
  
  
  
  
  
  
  
  
  
- Do you have experience with any of the following programming languages and tools? How much?
  - Java?
  
  - Python 3?
  
  - Prolog?
  
  - NLTK
  
  - WEKA
  
- Do you have background in formal logic? Can you show the truth table for AND, XOR, and implies? (Don't do so, I just want to know if you can.) Do you know what a syllogism is?
  
- Can you define the following? Depth first and breadth first search? A\* search? Alpha-Beta search?
  
- Do you have any background in ontologies or description logics?

**Other:**

- What are you hoping to get from this AI class?
  
  
  
  
  
  
  
  
  
  
- What else should I know about you that would be useful in teaching this class?
